PROJECT

Caber | College Team Project
2023–2025
Cab booking website

- Developed a full-stack cab booking platform using the MERN stack, allowing users to book rides with ease. Implemented role-based authentication using JWT for secure access. Integrated Google Maps API for real-time location tracking and fare estimation. Designed an intuitive UI with React and optimized backend performance with Node.js and Express. Utilized MongoDB to manage ride and user data efficiently.

Traveling Tracker | Smart India Hackathon (Finalist)
Sep 2024– Dec 2024
City bus tracking system

- Developed a web-based city bus tracking system using HTML, CSS and JavaScript. Integrated Google Maps API for real-time bus location tracking and estimated arrival times. Implemented a user-friendly interface to search routes, view nearby bus stops, and plan journeys efficiently, enhancing public transit accessibility.

Personal Portfolio Website
Mar 2025 – Apr 2025

- Developed a responsive personal portfolio using React.js and Tailwind CSS to showcase projects, skills, and contact details. Focused on clean UI, reusable components, and mobile-first design.
